

Extraordinary Entrances

Make a Grand Entrance

The entrance door is a defining feature of your home, and can often make a strong and lasting impression. At Kolbe, our craftspeople create each door by hand to match your vision, for a custom entryway that expresses your style. With our large selection of wood and aluminum clad doors, you are sure to find the perfect product to complete your design.

Personalize Your Home

From traditional or contemporary to simple or over-the-top door designs, Kolbe will help you create an entrance that truly reflects your unique vision. With numerous configurations and endless possibilities, you can create a one-of-a-kind entrance door that reflects your style and personality.

Photo courtesy of CMGT Construction Group

Create a Modern Entryway

If you enjoy the sleek look of a contemporary entrance, Kolbe has the solutions to make a simple statement that complements the rest of your home. Embrace the view with unique glass configurations, clean lines and narrow frames.

Photo courtesy of Christopher Simmonds Architect

Honor History & Style

With an extensive selection of finishing touches, Kolbe offers many options for traditional door styles. We can create custom doors for historic renovations, adding exterior casings, brickmouldings and accessories to replicate styles from all eras for a door design that stands the test of time.

Expand Your Entryway

Entrance doors are available in single, double and French units, for more illumination or wider openings. Highlight your entrance with decorative hardware or specialty glass for a truly one-of-a-kind look.

Shape Up Your Entrance

If a custom silhouette helps you express your style, Kolbe can help! Our flexible designs allow you to create a custom shaped door or entryway that adds drama and highlights the architectural details of your home.

Illuminate Your Design

Customize your door with sidelites or transoms – or a combination of both – to add more light and warmth to your entrance. Increase airflow with operating sidelites that create a wider opening for ventilation.

© Brad Feinknopf/OTTO

Add Dimension to Your Door

Add depth to your entrance door with various panel options. Choose from a traditional design or create a custom pattern to accentuate the overall appearance of your entryway. With multiple wood species, styles, shapes and sizes to choose from, the opportunities for personalization are nearly endless.

Use Patterns to Add Distinction

Showcase finely crafted glass for a beautiful, welcoming entrance. Choose from a variety of divided lite sizes and styles to add detail and elegance, or create a custom pattern for an even more personal touch.

Select Magnificent Finishing Touches

Kolbe has an extensive selection of glass, finishes and hardware to complete your door. Choose from our vast array of interior and exterior finishes, or create a custom color for a signature statement.

Upgrade to High Performance

Entrance doors can be modified for high performance or even impact performance. Whether you are looking for enhanced energy efficiency or resistance to hurricanes, Kolbe offers products that withstand the conditions of any climate.

Options & Accessories

Kolbe offers a multitude of glass, wood species, frame and trim options to ensure that every door makes an impression. Choose from an expansive selection of interior and exterior finishes, or create your own custom color for a signature statement. To complete the look, a large array of hardware styles and finishes is available to make your entry extraordinary.

Doors

Kolbe offers unique product lines designed to meet specific architectural and aesthetic needs. Each has its own distinct advantages and characteristics, while simultaneously offering numerous options for customization.

Photo courtesy of Christopher Simmonds Architect

VistaLuxe® Collection

Developed with architects for designs that require clean lines and large expanses of glass, VistaLuxe Collection doors offer clean lines and slim stiles and rails to maximize viewing areas. An extruded aluminum exterior provides low-maintenance durability, while a wood interior proves that modern design can be warm and organic.

Ultra Series

Kolbe's Ultra Series doors are finished with extruded aluminum cladding to create a look that has both classic style and modern durability. The high quality exterior cladding recreates the profile and details of wood doors, while a wood interior is perfect for historical or contemporary projects. Options are available for coastal areas requiring hurricane impact performance.*

- Inswing & outswing entrance doors
- Commercial doors

© Anice Hoachlander/Hoachlander Davis Photography

Heritage Series

Kolbe's Heritage Series doors are carefully crafted with a wood interior and exterior, making it possible to create architecturally intricate and historically accurate details. The exterior may be finished with a latex primer, or coated with K-Kron II – a durable exterior finish that enhances and preserves the look of wood doors. Modifications are available for coastal areas requiring hurricane impact performance.*

- Inswing & outswing entrance doors
- Commercial doors

Additional Doors & Functionality

Kolbe offers additional doors that can be used for entrances to complete your project. Functionality options are also available to expand your design, including operational sidelites that are vented or hinged, or pivot doors with specialized hardware.

- Craftsman collection doors
- Fiberglass doors
- Pivot doors
- Operational sidelites

* Impact options are not available on all products. Please ask your dealer for more information.

Frames

Kolbe's Ultra Series extruded aluminum clad frames can be used for both Ultra Series and Heritage Series door panels, while VistaLuxe Collection frames are exclusive to VistaLuxe Collection doors.

VistaLuxe® Collection

The VistaLuxe Collection extruded aluminum clad frame is offered in two different exterior frame styles for door panels – Flush and Accent – and matches VistaLuxe Collection windows for a seamless look. As standard, the frame is finished with a 70% PVDF fluoropolymer finish offered in our extensive color selection (see pg. 35).

Ultra Series

The Ultra Series extruded aluminum clad frame can be used for Ultra Series and Heritage Series door panels, and matches Ultra Series windows for a consistent look. As standard, the frame is finished with a 70% PVDF fluoropolymer finish that resists chalking and fading over time, and is offered in our extensive color selection (see pg. 35). Accessory grooves are integral to the frame for the easy addition of extruded trims. Numerous brickmoulds are available as well (see pg. 32).

Heritage Series

The Heritage Series wood frame can be used for Ultra Series and Heritage Series door panels, and matches Heritage Series windows for a traditional look. As standard, the exterior is finished with a latex primer, or may be coated with K-Kron II – a durable finish that enhances and preserves the look of wood doors. Heritage Series frames come standard with 1-15/16" brickmould; other casings are available (see pg. 33).

Panel & Sidelite Designs

Standard panel designs, which are just the beginning of our custom capabilities, are available in VistaLuxe Collection and Ultra Series extruded aluminum clad and Heritage Series wood doors. Expand your design with operating sidelites that are vented or hinged, allowing even more of the outdoors inside. Below are various panel and sidelite designs to choose from when creating your entrance door, or challenge us with your own design.

Not all panel designs are available in all sizes and series.
Not all panel designs are shown; see your local Kolbe dealer for further assistance.

Craftsman Doors

As standard, inswing entrance and Craftsman inswing doors feature Gold-painted adjustable hinges. Outswing entrance and Craftsman outswing doors feature Bright Brass 4" x 4" non-adjustable hinges with 1/4" radius corners. Handle sets, boring or locking systems are not standard on entrance doors.

Sill without Thermal Break for Inswing & Outswing Doors

- ▶ For projects that require ADA-compliant sills for Ultra Series and Heritage Series
- ▶ Standard Bronze Anodized finish
- ▶ Optional Clear Anodized finish

Sill with Thermal Break for Inswing & Outswing Doors

- ▶ For projects in cold climates that require ADA-compliant sills for VistaLuxe Collection, Ultra Series and Heritage Series
- ▶ Standard Bronze Anodized finish
- ▶ Optional Clear Anodized finish

Glass

Adding glass to your entrance door can help bring in natural light, open up spaces, and make your entryway unique. Kolbe entrance doors with glass use tempered, insulating glass with argon gas as standard. Modifications are available for coastal areas requiring hurricane impact performance.*

Kolbe entrance doors feature various glass options that provide the perfect combination of energy savings and year-round comfort. In addition to meeting efficiency requirements, we also offer a selection of specialized glass to enhance aesthetic and décor. Some available options are listed below.

Specialty Glass

Kolbe offers tinted, colored or patterned glass for shading, privacy, or visual interest. Customize your windows with beveled glass, etched glass, leaded glass, and coming options to match your home's style and create a special accent. Ask your dealer for details.

Laminated

Benefits include safety, security, sound control and provides the ultimate in UV blockage.

Impact

Glazing utilized to withstand harsh environmental conditions, especially in coastal regions. Combined with an impact product, this product offers the highest level of security.

Not all glass is available on all series. Please contact your Kolbe dealer for product specifics.

LoE insulating glass with a stainless steel spacer bar carries a 20-year warranty. Not all glass options listed have the same glass warranty. Please contact your supplier for details.

* Impact options are not available on all products. Please ask your dealer for more information.

Divided Lites

Expand the character of your home or project by adding one of our divided lite options to your doors. Choose anything from a traditional, colonial style pattern to a unique, custom design to accentuate the overall appearance of your project. Kolbe's meticulous attention to detail is essential to perfect alignment and an exact fit of each individual element of the divided lite pattern.

Kolbe offers two types of divided lites for entrance doors: performance divided lites and true divided lites. Choose from a beveled, ovolo or square profile. Numerous bar widths are available as well, from 5/8" to 4-1/2". Custom sizes and patterns can help give your door the perfect finishing touch.

Beveled

Ovolo

Square

Performance Divided Lites

Kolbe's performance divided lite (PDL) glazing system gives the appearance of true divided lites without sacrificing energy efficiency. Extruded aluminum bars are adhered to the exterior and pine bars are adhered to the interior of the single lite of insulating glass. Aesthetically pleasing spacer bars are installed within the insulating glass unit. Together, these bars create the illusion of true divided lites. PDL bars are available in 5/8", 7/8", 1-1/8", 1-3/8", 1-3/4", 2-1/4" or 4-1/2" bar widths. The exterior finish of the aluminum bars will match the exterior finish on the unit. Variations on the PDL option may include custom grille patterns, custom bar widths or no spacer bars. Some designs may have a composite material for the exterior and interior PDL bars.

True Divided Lites

True divided lites (TDL) are available only for Heritage Series wood doors, and are often used in restorations requiring historical accuracy. TDL are individual panes of glass held in place with wood bars. The horizontal and vertical, colonial-style wood TDL bars use interlocking half-lap joints. Profile shadow lines enhance the warm, richness of the wood on both the interior and exterior. The exterior finish on the bars will match the exterior finish of the unit. TDL options include custom patterns and bar widths, other wood species and interior stain or paint finishes. Depending on glass options chosen, standard bar widths are available in 7/8" or 1-1/8". TDL glass units are not filled with argon gas.

Glazing Beads

Glazing beads are available with a choice of beveled, ovolo or square profiles.

Finish Options

Interior Wood Species

We craft Ultra Series, Heritage Series, and VistaLuxe Collection doors from a variety of wood species. If a special wood species will enhance the beauty of your project, we'll do our best to achieve your vision. The Forest Stewardship Council® (FSC®)-certified wood species are also available for green building projects (FSC® license code FSC-C019541).

Interior Finish Options

For units that are ready to install upon delivery, most of Kolbe's wood doors can be prefinished on the interior with one of the water-based stains or paints shown. Stained units are given two coats of satin finish clear sealer. Because our interior finishes are water-based, low-VOC stains and paints, you can rest assured you've made an environmentally conscious decision. Custom colors are also available.

Printed images of wood species and stain options will vary from actual product colors. Selections should be made based on color samples available from your Kolbe dealer. Stain colors are shown on pine. A double coat clear finish is also offered. Since no two trees are identical, wood can be expected to differ both in color and graining. These factors will influence the stain's final color. Color-matched interior paint is available through any Sherwin-Williams retail store in the United States and Canada.

Exterior Finish Options

Heritage Series doors may be coated on the exterior with latex primer or K-Kron II – a durable exterior finish that enhances and preserves the look of wood doors. Kolbe's Ultra Series and VistaLuxe Collection clad products are finished on the exterior with a commercial-grade, 70% PVDF fluoropolymer coating that meets the highest specifications in the industry. This finish carries up to a 30-year warranty, and many color options (as well as custom colors) are available for design flexibility. In addition, a variety of mica and anodized finishes are available for Ultra Series and VistaLuxe Collection clad products.

				White	Cloud	Ultra Pure White
				Abalone	Alabaster	Camel
Mudpie	Nutmeg	Khaki	Sahara	Beige	Natural Cotton	Spiced Vinegar
Gingersnap	Truffle	Bronze [†]	Rustic	Shadow	Shale	Smokestack
Onyx [†]	Coal Black [†]	Midnight [†]	Steel Gray	Slate	Castlerock	Timberwolf
Corbeau [†]	Sapphire	Coastal Storm	Anchor Gray	Lunar	Emerald Isle	Mediterranean
Cider	Copper Canyon	Maize	Green Tea Leaf	Basil	Hartford Green	Mystic Ivy
Papaya	Roma	Chutney				
Galaxy Silver Mica	Silverstorm Mica	Cosmic Gray Mica	Night Sky Mica	Mica		
				Anodized	Clear Anodized	Champagne Anodized
					Black Anodized	Dark Bronze Anodized

[†]Bronze, Onyx, Coal Black, Midnight, and Corbeau are not available for Heritage Series products. Some options for our products may have limited color offerings or may incur a nominal charge. Check with your Kolbe dealer for further details on pricing and availability. Printed images of exterior finishes may vary slightly from actual colors. Selections should be made based on actual color samples available from your Kolbe dealer.

There is a "color range" with anodized colors. That is, there is an acceptable "light" to "dark" color range that can be experienced on any job. According to AAMA 611-98 specifications, Section 8.3, the range may be up to 5 Delta E's. We can provide from our anodized vendor color samples of this color range if requested. The color range is due to numerous variables which include (but are not limited to) the shape of the parts, alloy variations and time in the anodizing process. This could mean that a panel part may appear slightly different in color than a frame part. This is/will be acceptable. Even the samples that may be provided may vary from the final product due to the variables. You must be aware of this as this will be considered acceptable.

Hardware

To truly customize your entrance door, Kolbe offers an array of lever handle styles that are engineered for function as well as aesthetic. With multi- and single-point locks, these decorative handle sets are available in numerous styles and finishes to coordinate with your décor. Keyed handle sets are optional.

The following handle styles are available as an option for entrance doors, in the finishes shown below.

Electronic Locks

Don't worry about forgetting your keys – the multi-point locks of your VistaLuxe Collection, Ultra Series and Heritage Series inswing and outswing entrance doors can be engaged or disengaged electronically for easy, secure operation. Electronic multi-point locks can be factory-installed into a door panel and integrated with operating systems for fingerprint swipe activation. In addition, the doors can automatically lock when closed.

*The Oil-Rubbed finish is a living finish, which means that it will change appearance over time with use.

†PVD (Physical Vapor Deposition) finish is an application over the color which helps protect the hardware against tarnishing, peeling and cracking.

Printed images of hardware finishes will vary slightly from actual colors. Not all hardware colors are available on all hardware options. Selections should be made based on color samples available from your Kolbe dealer.

Hinges

As standard, inswing doors feature Gold-painted adjustable hinges. Outswing doors feature Bright Brass 4" x 4" non-adjustable hinges with 1/4" radius corners. Additional residential and commercial grade options are available in multiple styles, sizes and finishes. Certain limitations apply; talk to your dealer to find the option that is right for your project.

Options & Accessories

Dentil Shelves

Dentil shelves are an option for craftsman style doors. Choose from a 4-block or a 16-block style shelf to add a custom look to your door. The shelves are made from a durable high density polyurethane (HDP) which will not split, rot or warp. Each piece has an oak grain texture and can be stained or painted to match the finish of your door.

Wire Brush Finish

Most Kolbe wood doors can be further enhanced by our wire brushed finish. Wire brushing creates a rugged texture and adds character – the perfect option to complement any rustic-styled home. Due to the nature of the finish, certain limitations apply. Wire brushed products must be stained or painted in the field.

Universal Design

To meet the needs of homeowners with physical limitations, Kolbe offers a variety of doors that are designed to make independent living possible. From door sills that create a flush surface for easier passage between the interior and exterior, to door hardware that provides ease of operation, we have numerous options that will help make living at home easier.

Lever handles in a variety of styles for swinging doors

ADA-compliant sill for entrance doors

Wider door sizes help provide additional space for those who use mobility aids.

Many of these options meet standards of the Americans with Disabilities Act. Other options, such as taller bottom rails on doors, are also available to meet these standards. Certain product limitations and modifications may apply. Please contact your local Kolbe dealer for more information.

Impact Performance Modifications*

Many of our products are available with performance packages to meet even the strictest building code requirements. Depending on the criteria, Kolbe offers high performance and impact performance products to improve air, water and structural ratings or sound transmittance ratings. Products are specially designed with the strength and durability to withstand hurricane force winds and flying debris in the coastal regions. Contact your Kolbe dealer for further details.

*Impact options are not available on all products. Please ask your dealer for more information.

We're for the visionaries.®

**We're for people
who take building
to new levels.**

We're for people who are passionate about design, who care about the big picture and the smallest detail. We're for people who aren't satisfied with mainstream choices... who push the limits of what's possible with the options and innovations that can only be found in Kolbe windows and doors.

© Roger Wade

We're for quality craftsmanship.

We're for a tradition of excellence that outlasts the latest design trend. The Kolbe story began with a family and a vision. More than 70 years after the Kolbe brothers began their commitment to producing premium quality windows and doors, products bearing their family name can be found in some of North America's most impressive homes and businesses.

We're for expertise.

We're for people who dream of a personalized design experience. That's why you can't find Kolbe windows and doors in the aisles of a home center. Our products are only available through a Kolbe dealer, because they are as passionate about windows and doors as you are about bringing your vision to life. And they will work with you to make your dream a concrete reality.

© Gibeon Photography

We're for possibilities.

We're for people who won't settle for "standard." We're for limitless options and custom solutions that can only be found in Kolbe's made-to-order products. Our team members are craftspeople who focus on building one window or door at a time, to create distinctive products that fulfill your unique vision.

We're for innovation.

We're for people who want to take building to new levels, with advancements in not only extraordinary sizes and shapes, but also ground-breaking products. We're for creative thinking that redefines what's possible, constantly reimagining our windows and doors to elevate style, performance and functionality.
